

High performance fuel saving charcoal stove — C28-12

- Easy to use and clean burning. The ash drops into the drawer that also controls the air supply resulting in efficient high, medium, and low power
- Lightweight and portable. Weighs less than 5kg and is equipped with two comfortable stainless-steel handles with rubber coating
- Durable and steady. Stainless steel combustion chamber, stove body, and ash drawer

Performance

Capacity: 8-12 persons per meal

Average	High power	Tier	Low Power	Tier
Efficiency (%)	47	4	35	3
CO Emissions (g/MJ _d)	6.35	3	17.86	1
PM Emissions (mg/MJ _d)	28.2	4	23.13	4
Time to Boil 5 Liter water (min)	46		NA	

Advantages

- Easy to operate
- Thermal efficiency up to 47%
- Maintenance free design
- New design, more fuel capacity
- All materials are recyclable

Specifications

C28-12

Lifespan: 3~5 years

Factory Warranty: 1 year

Weight: 4kg

Size: (l)28cm * (w)28cm * (h)25cm

20GP: 1300 units 40HC: 2730 units
